DAMAGE CHARGES

Damage has been assessed and the applicable charges calculated using the following criteria:
• **Bodywork**: damage charges are calculated and updated using the "Triatel" or "DAT Silver" systems, recognised and used by leading insurance companies and based on vehicle manufacturers' price lists;
• **Glass**: damage charges are calculated and updated based on vehicle manufacturers' price lists;
• **Tyres**: damage charges are calculated and updated based on tyre manufacturers' price lists.

All amounts below include labour, ancillary work and materials required to restore the vehicle, and waste disposal. They also include loss of use, calculated by multiplying the number of days required to restore the vehicle (including any time needed to order spare parts) by the standard daily rental rate. Charges for mechanical damage, multiple damage and damage to parts not listed in this schedule are assessed individually by the Rental Company after inspecting the damaged vehicle, according to the type of damage, also taking into account labour, ancillary work and materials required to restore the vehicle, and waste disposal. The assessment also takes into account loss of use, calculated by multiplying the number of days required to restore the vehicle (including any time needed to order parts) by the standard daily rental rate. Bodywork damage is classified as shown in the table below. Once damage has been assessed using the above criteria, the Rental Company has sole discretion to decide when to carry out the repair.

NON-CHARGEABLE SCRATCH
A single scratch less than 2 centimetres long on the vehicle bodywork is non-chargeable, except on the following parts: roof, glazing, mirrors, lights, underbody, glass, wheel rims and tyres.
MINOR SCRATCH
The following is classified as minor and is therefore chargeable:
- A single scratch more than 2 centimetres but less than 10 centimetres long, or a single scratched area no larger than 10 x 5 cm.
- A single scratch on any of the following vehicle parts: roof, glazing, mirrors, lights, underbody, glass, wheel rims and tyres, even if less than 2 centimetres long.
MAJOR SCRATCH
A single scratch more than 10 centimetres long, or a single scratched area where the paint has been removed, exposing underlying paint layers or even metal, is classified as major.
MINOR DENT
A single dent no larger than 5x5 cm is classified as minor.
MAJOR DENT
A dent or group of dents larger than 5x2 cm, but contained within a single 40x40 cm area, is classified as major.
REPLACEMENT/BREAKAGE/MISSING PART
This category covers damage requiring a vehicle part to be replaced because it is missing, broken or otherwise impaired; it also covers single or multiple dents exceeding a 40x40 cm area.
NOTE All amounts exclude VAT

Last updated: 26 March 2025

KEY
NA = Non-chargeable (damage is neither recorded nor charged to the customer)
NQ = Not immediately assessable (the damage charge cannot be determined immediately upon inspection)
NP = Not present (the vehicle part is not fitted to the specific
